

Boardmarker Group  
Weekly Newsletter  
Apr 7, 2017  
Version 1.0 Issue 2

Our second newsletter is focused on private opportunities we are working on or have been introduced to. On March 30, the Canadian Securities Exchange (CSE) held a marijuana and CSE listings refresher for interested parties. We did not attend the marijuana portion, but sat in for two presentations by Noble WIFI and Localize. Both private entities were very impressive, with potential to expand with additional funding. Noble WIFI is developing a WIFI network for Jamaica, while Localize is developing a connected and transparent food supply chain. Info on both entities can be viewed at:

[www.noblewifi.com](http://www.noblewifi.com)  
[www.localizeyourfood.com](http://www.localizeyourfood.com)

We encourage any parties receiving this newsletter to call or email for additional information, and consult with a registered investment advisor for any investment advice.
